

Partial Road Closure - George Street

UPDATE - It is anticipated that the work will be complete, and normal traffic will resume on George Street by August 10, 2017.

Weather permitting, beginning on Wednesday, July 5, 2017, work will begin to complete street repairs, rebuild pedestrian curb ramps, and resurface George Street in University Heights. A detour route will be posted utilizing Koser Avenue, Sunset Street and Oakcrest Street. Local traffic to Marietta Avenue, Tower Court, and properties along George Street will still be able to access George Street from the south. Flaggers will be present during the various stages of the work to direct local traffic through the work area.

Motorists and pedestrians are to take note of this work, use caution around the work site, expect delays, allow extra travel time, and seek an alternate route during this time period.
