University Heights City Council Meeting Webcasts Viewing Statistics From EarthChannel

May Council Meeting statistics 5/12/16 to 6/30/16

June Council Meeting statistics

June council meeting was not posted until July 5, 2016

Google Domain Update

No change from last month.

Community Room Technology

Attached is the initial map designed by Brock Shymansky of Reference Audio. I shared this with council prior to the 6/27 special meeting.

Council meeting technology:

The items listed on this map along with associated in-wall conduit and wiring would give us a good usable space that would allow for easy recording of meetings. Please note that this design recommends a system rack placed inside the back office for use during council meetings by the video technician.

Some portions of this set up that we as a city already own, or that would be donated by John McLure include:

- 12 desktop XLR microphones
- Audio mixer
- Audio amplifier
- Video camera
- Video mixer

Of the items listed on the map I would recommend a manual rather than motorized screen.

For community use of the room I would recommend we purchase two wireless audio microphones which would allow for flexible community use.

As a council we need to decide if whether or not to purchase entirely new equipment or use the bulleted items above.

I would expect that purchase of equipment and installation would be at least a \$20,000 outlay, and likely higher.

Sound Permit for Concert at Stella on 7/19/2016

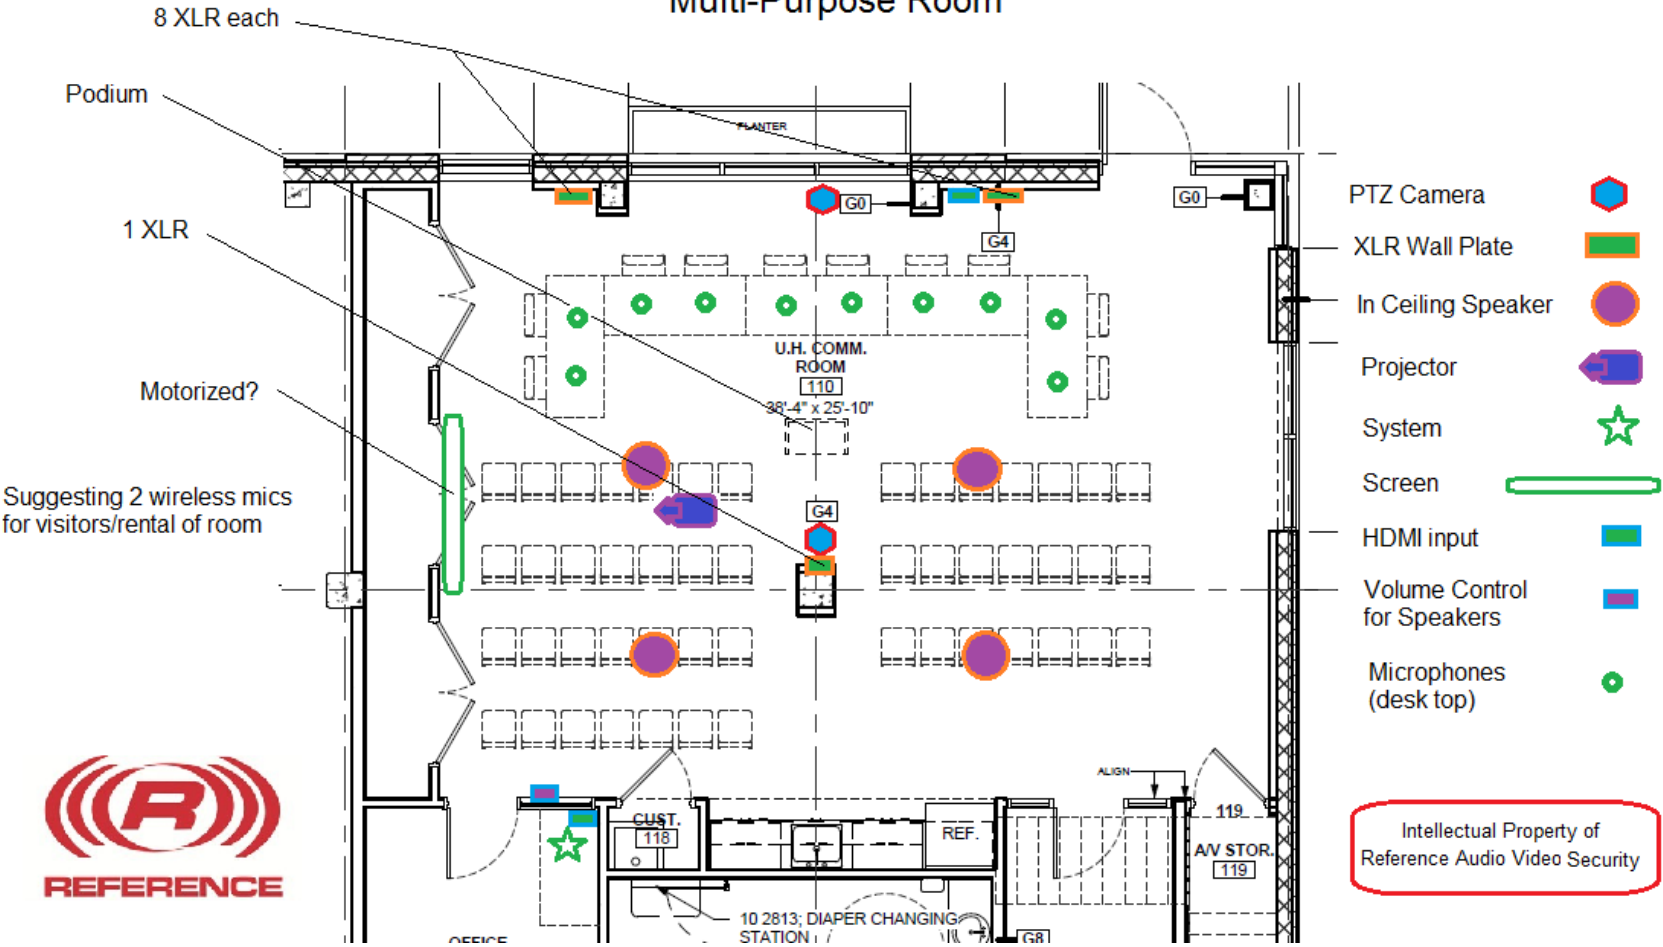

As mentioned at the June meeting, UH resident Pete Damiano and his band will play a benefit for the Neighborhood Centers of Johnson County at Stella on Thursday 7/21/16. Concert will be from 7:30 to 9 PM. The concert will take place in Stella's parking lot. Stella has contacted the Iowa ABD (Alcoholic Beverage Division) and a "Privilege" has been added to their current license for Temporary Outdoor Service on this date. Their insurance company has been contacted and all is covered. Attached is a map of the layout for the night.

Police Chief Stanley has reviewed this layout and approves of it. Paul Moore requests that we allow patrons to park in his grass lot on that evening only. Also attached is a draft resolution that council will need to approve on Tuesday night.

Bike Friendly City Application Update

I have been meeting with MPO's Sarah Walz to continue to update our Bike Friendly City re-application. We will submit the grant in August. I will share a copy with council when it is completed.
