

Update: Final Leaf Vacuuming Moved to Spring

The leaf vacuuming tentatively scheduled to begin on December 5 has been cancelled due to weather. A new date for the final round of leaf vacuuming—in late March or early April—will be announced in spring.

City of University Heights Leaf Vacuuming 2018:

Rake leaves to the edge of the curb/street, not into the street or gutter.
Leaves only; no sticks or other yard waste.

Quality Care expects it could take three days to vacuum all of University Heights each time, so vacuuming in some areas may begin as many as two days later.

Start dates:

November 7

November 19

~~December 5~~ (subject to change if a snow storm is predicted or if leaves are still on trees)
