

PUBLIC NOTICE

MELROSE Ave. at KOSER Ave. REPAIR WORK

Weather permitting, beginning on **Wednesday, August 2, 2017**, work will begin to remove and replace damaged street panels on the east side of the Melrose Avenue and Koser Avenue intersection in University Heights. Two way traffic on Melrose Avenue will be maintained during the construction work. Due to required repairs, lane widths will be reduced and the left-turn lane on Melrose Avenue (to go south onto Koser Avenue) will be closed. Due to the lane shifts, the traffic signal timing will be temporarily adjusted, and the efficiency of the signal will be reduced until the new pavement is completed and normal signal operation is resumed.

It is anticipated that normal traffic will resume by **Tuesday, August 15th**. Drivers should take note of this work, use caution around the work site, expect delays, be extra alert for bicyclists and pedestrians, allow extra travel time, and if possible, seek an alternate route during this time period.
